

September 12, 2013

Contract No. 4400004275
State Projects No. H.010563.5 & H.010564.5 (OSBR)
F.A.P. Nos. H010598 & H010564
Off-System Highway Bridge Program
Calcasieu Parish

Q1. Will the replacement bridges for these projects require pedestrian sidewalks?

A1. At this time I cannot answer question No. 1 with a yes or no. If the existing bridge has sidewalks, we will probably be required to do the same.

Q2. Will standard plans for replacement bridges requiring sidewalks be available for Consultant use or will development of bridge plans with sidewalks for the replacement structures be required?

A2. I know of no standard bridge details with sidewalks; this has always been a special design.
